ACCENTCARE AT NEW POND VILLAGE On-Campus Comprehensive Healthcare

We are proud to partner with AccentCare and Circle Medical Team to provide our residents with exceptional medical care through our Wellness Office, right here on New Pond Village's campus.

AccentCare has extensive experience with senior living communities and provides custom care solutions across the continuum to meet the unique needs of our residents.

This service is covered by insurance, offers continuity of care to simplify transitions and allows for coordination and communication with a single provider. Through this partnership offered to the New Pond Village community, a dedicated medical team delivers customized, comprehensive services, including:

■ Wellness Services

- *Blood pressure clinics*
- *Ask-a-nurse*
- *Holistic therapy*
- *Integrative healing therapy*

■ Behavioral Health

- *BGRN-credentialed nurses*
- *Depression, anxiety*

■ Rehabilitative Therapy

- *Physical*
- *Occupational*
- *Speech*

■ Additional Support

- *Cardiac services*
- *COPD management*
- *Diabetic services*

Services can be received in the Wellness Office or in the resident's apartment home.

Meet the Circle Medical Team

In addition to our partnership with AccentCare, we are also joined by Dr. Adrian Pieleanu and the Circle Medical Team. This private practice is comprised of a half-dozen doctors and nurse practitioners who travel with everything they may need to treat their patients in the comfort of their apartment homes, easing the burden of getting out to the doctor. Circle Medical Team is extremely focused and committed to their patients and will meet with them as often as they want or need.

Dr. Adrian Pieleanu, MD

Dr. Pieleanu attended medical school in Romania, graduating in 2004. Then, he completed his internal medicine residency at Abington Memorial Hospital (associated with Temple University) in Pennsylvania. Since earning his board certification in internal medicine in 2010, he has worked as a hospital physician, transitioning to geriatrics and senior care in 2016. Dr. Pieleanu brings a wealth of experience and knowledge to the New Pond Village community, placing an emphasis on the importance of preventative care for his patients. His mantra, he says, is, “Helping seniors at home helps them live longer and do better.”

■ Circle Medical Team In-Home Services

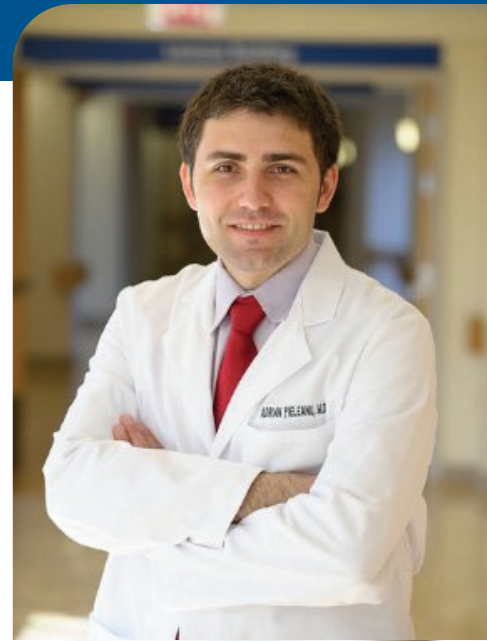

- *Sick visits in your apartment home*
- *Post-hospitalization visits in your apartment home*
- *Medication review and management*
- *Reduction of emergency department use*
- *PCP service with 24/7 clinician support*

■ Covered by Medicare

- *Medicare and Medicaid insurance will cover in-home care for those who qualify.*
- *Medicare will cover 80% of the allowed amount, with the other 20% billed to the second insurer, the same as the physician's office.*

■ Eligibility—If any of the following apply to you, contact us at 844-910-3411 to see how we may be able to help.

- *Difficulty leaving your apartment home*
- *Multiple hospitalizations/ER visits*
- *Use of devices such as cane and walker*
- *Shortness of breath with exertion*
- *Difficulty walking*
- *Oxygen use*
- *Need special transportation*
- *Disabled*
- *Require someone to be with you at appointments*
